Dear Mr. Wolfram,

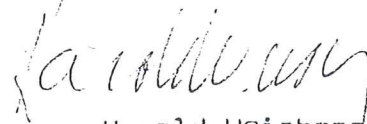

After many millions of words went through my Hermes manual portable, it started breaking down. It is in the shop again and this substitute gives me an assortment of problems so I'll be shorter than I otherwise would ~~xx~~ probably have been.

I wrote NEVER AGAIN! before Case Open. NA! was sat on and Case Open was butchered. But with NA! I saw what I could usefully do when I no longer have access to all those FOIA records that are in our basement and the stairs are unsafe for me. As a result, and please do not pass this around,* I have quite a few unpublished manuscripts of the Case Open nature, both sides of the ~~assassination~~ irresponsibilities. I keep working on them. I also addressed motive, means and opportunity with what is public but not from the assassination records. It gets into the area you do in your letter here today. If you are ever in the area you'dl be welcome to read it.

What you ~~may~~ mention would make an interesting addition to an epilogue.

COPA is a waste of time, I fear. Most of them are assassinations but, not scholars.

Thanks and best wishes,

Harold Weisberg

* I do not now have time for the inevitable controversies and after heart failure twice last year that would not be good for me.
